Meet Our Staff - Specialties

Dentistry

The "Lifelong Smiles" is part of an initiative at the Case Western Reserve School of Dental Medicine. Its goal is to train dental students to treat older patients, ages 60 and older and, at the same time, offer needed services to residents of Cleveland and to JFSA members.

The dental services are provided monthly inside a beautifully renovated *Cleveland Chesed Center* in Cleveland Heights located at 1898 S. Taylor Road, Cleveland Heights, Ohio 44118.
