Julian has struggled to belong ever since he was expelled from his former school for his treatment of Auggie Pullman. To transform his life, Julian's grandmother finally reveals her own story of courage. During her youth in Nazi-occupied France, a boy shelters her from mortal danger. Together, they find first love in a stunning, magical world of their own creation, while the boy's mother risks everything to keep her safe. After watching it together, we will briefly discuss the film. Free to participate.
